

VENKATESWARLU DERANGULA

Senior DevOps Engineer | AWS | GCP

vderangula44@gmail.com • +91 7780569119 • www.linkedin.com/in/venkateswarlu-derangula • India • Open to Relocation

Summary

Senior DevOps and platform engineering professional with around 10 years of experience delivering scalable cloud infrastructure, automation, container platforms, CI/CD, and production reliability. Proven experience leading platform engineering initiatives, improving developer productivity, strengthening security and observability, and supporting highly available enterprise environments. Holds professional-level cloud and Kubernetes certifications.

Skills

Azure • ARM Templates • Azure DevOps • AKS • GCP • GKE • AWS • EC2 • S3 • RDS • AWS Lambda • CloudWatch • EKS • Kubernetes • Microservices • DevSecOps • Docker • Python • Observability • Git • GitHub • DevOps • Terraform • CI/CD • GitHub Actions • API Gateway • ELK Stack • Airflow • IAC • Prometheus • Grafana • Nginx • Jenkins • Ansible • Sonar • GitLab CI

Certifications

AWS Certified Solutions Architect – Professional
Certified Kubernetes Administrator (CKA)
Google Cloud Certified Professional Cloud Architect

Experience

Infinite Computer Solutions

Bengaluru

Technical Lead

09/2023 - Present

- Provisioned scalable, secure AWS infrastructure via Terraform, achieving Infrastructure as Code (IaC) maturity and reducing manual effort by 75%.
- Led Kubernetes platform engineering efforts, managing production-grade EKS clusters to consistently maintain 99.99% availability and reliability.
- Orchestrated a secure API gateway and ingress architecture, efficiently handling over 100,000 microservice requests daily, enhancing system performance.
- Spearheaded CI/CD transformation by migrating Jenkins to GitHub Actions, standardizing workflows, boosting security, and enabling rapid daily software releases.
- Developed centralized observability solutions using ELK, Prometheus, and Grafana, enhancing monitoring capabilities and reducing mean time to recovery (MTTR).
- Integrated MLOps automated workflows within Kubernetes, streamlining machine learning model training, validation, and deployment processes, improving deployment.

Capgemini Technology Solutions

Bengaluru

Professional II

07/2022 - 09/2023

- Implemented automated CI/CD pipelines with Jenkins, Docker, and Kubernetes, boosting deployment velocity by 40% across multiple digital platforms.
- Automated cloud infrastructure provisioning on AWS through Infrastructure as Code with Terraform, ensuring scalable and resilient environments.
- Streamlined Kubernetes deployments using Helm, significantly reducing release inconsistencies and deployment failures.
- Established monitoring frameworks with Prometheus and Grafana, enhancing system reliability and incident response capabilities.
- Led production incident management and root cause analysis, decreasing recurring incidents by 25% and improving overall system stability.

Societe Generale

Bengaluru

Specialist Software Engineer

01/2022 - 06/2022

- Established Git branching strategies and code review frameworks, enhancing collaboration and decreasing merge conflicts by 40%.
- Led the migration of on-premise applications to AWS (EC2, S3, RDS, Lambda), optimizing infrastructure costs by 25% while boosting scalability.
- Automated configuration management with Ansible, cutting manual efforts by 70% and ensuring consistent deployment across environments.
- Enhanced Kubernetes-based orchestration, improving resource utilization by 30% and significantly minimizing deployment failures.

Experience

Motorola Solutions (Kodiak Networks)

Bengaluru

Analyst – Customer Success

12/2020 - 01/2022

- Streamlined workflows through enhanced Git-based version control strategies, reducing merge conflicts by 30% and driving better collaboration.
- Managed Jenkins-driven CI/CD pipelines by implementing automation techniques, resulting in a 40% reduction in release cycle times.
- Architected and deployed scalable Kubernetes clusters on AWS (EKS), achieving 99.9% uptime and significantly improving application scalability.
- Led Docker containerization initiatives for consistent development, testing, and production environments, ensuring reliability and operational efficiency.
- Orchestrated and optimized container workloads on Kubernetes, enabling horizontal scaling and enhancing system reliability by 25%.
- Collaborated with QA teams to establish automated testing frameworks, resulting in a 35% reduction in post-release defects.

BNP Paribas

Chennai

Associate Level I

08/2018 - 04/2020

- Developed Jenkins pipelines as code, automating complex CI/CD workflows, resulting in a 40% reduction in release timelines.
- Enabled automation in microservices environments, increasing deployment frequency by 30% and minimizing errors through effective Git integration.
- Implemented JFrog Artifactory for artifact lifecycle management, enhancing package distribution efficiency by 25% and accelerating delivery turnaround.
- Established robust monitoring frameworks using Prometheus and Grafana, significantly improving proactive issue detection and reducing bottlenecks by 35%.

State Street HCL Services

Chennai, India

Sr Analyst

09/2017 - 07/2018

- Executed Linux system installation and configuration, enhancing overall operational efficiency.
- Improved system stability by 75% through robust package management and performing 50 kernel upgrades.
- Proactively troubleshooted diverse technical issues, resulting in a significant reduction in downtime.
- Leveraged AWS and Azure environments to optimize system performance and resource allocation.

State Street HCL Services

Chennai, India

Analyst

05/2015 - 12/2016

- Administered Linux servers, achieving over 95% SLA adherence through effective resource management.
- Systematized routine administrative tasks using Shell scripting, reducing operational time by 30%.
- Monitored CPU, memory, and disk utilization, implementing proactive measures to prevent outages and maintain system reliability.
- Enhanced server performance and availability by optimizing resource allocation across cloud platforms.

Education

SV University, Tirupati

Tirupati

MBA
